POLICY MATTERS: TECHNICAL (56/2005)

[Decision taken on Vigilance Division's note No. NHA/13013/79/2003-Vig. dated 04.08.05]

Sub- Incorporation of technical specification of modified bitumen in Standard Bidding Document – req.

In a matter pertaining to Department of Road Transport & Highways regarding unsatisfactory performance of Modified Bitumen in highway projects, the CVC has advised to follow practice of allowing all suppliers to participate in tenders instead of restricting it to refineries. The CVC has further advised to consider making specific provisions in the tender documents regarding technical requirements of Modified Bitumen to be supplied, process of transportation as well as necessary operations, such as agitated and controlled heating of CRMB before use etc.

2. It has, therefore, been decided that in all the bidding documents of future projects, the restriction of participation by refineries only in tender for supply of modified bitumen will be removed and all suppliers of modified bitumen will be allowed to participate in the tender process. The technical requirements of modified bitumen to be supplied and process of transportation as well as necessary operation such as agitated and controlled heating of CRMB before use will also be incorporated in the bidding document as soon as it is finalized by the Ministry.

3. This issues with the approval of Chairman.
