POLICY MATTERS: TECHNICAL (61/2005)

[Decision taken on CM Division's file No. NHAI/CM/VIP/2005]

Sub: Permission for Access to Private Property, Fuel Stations, Service Stations, Rest Areas etc and laying of underground utilities along National Highways under Widening / Improvement.

The cases related to permission for access to private properties, fuel / service stations, rest areas etc as well as for laying of underground utilities within NH ROWs along NHs under widening / improvement or to be taken up, are being received at HQ level. It has been observed that such cases are not being examined with respect to provisions of junction, median gaps, service roads etc in the proposed DPR.

2. Therefore, all concerned PIUs/CMUs may please ensure that the permission cases falling on the stretches where widening or improvement is underway or to be taken up, should also be examined with respect to proposed DPRs. This would ensure that the guidelines issued by MoSRT&H are not violated after widening / improvement of the road.
