CIRCULAR NO. NHA/COMMERCIAL OPERATIONS/57

Sub. : Consideration of completed length in partially completed packages for tolling

As you are aware, entire Golden Quadrilateral, North-South and East West Corridor and other projects being taken up under NHDP Phase-I and Phase-II are to be tolled on completion, in accordance with the policy of the Government of India. With this in view, in consultation with concerned Technical Divisions, a tolling plan (referred to as "the overall plan") dividing entire GQ into identified toll sections ("toll sections") and fixing locations of toll plaza has already been worked out and circulated. Similar exercise in respect of North-South and East-West Corridor is underway.

Such toll sections are not co-terminus with Civil Construction Packages. At times, such sections include more than one Civil Construction Package or part length of certain packages. Responsibility for submission of proposal for notification and all related matters lies with the concerned PD under whose jurisdiction the location of the plaza ("the PD of the Plaza") falls irrespective of controlling PDs for Civil Constructions Packages ("the Packages") included in a particular toll section as per the Overall Plan. It is likely that:

- 1) Some of the packages of which the entire length is included in a Toll Section, do not fall under the jurisdiction of the PD of the Plaza.
- 2) In case of some of the packages, only part of the length of a package is included in a Toll Section. Such packages contributing only part of its length to a Toll Section, may not be under the jurisdiction of the PD of the plaza.

It is the responsibility of the PD of the plaza to seek directly the information from the PD (s) of contiguous packages(s) included in the toll section under his jurisdiction about the likely date of completion, cost etc. of such sections. The concerned PD has to proactively monitor the progress of the contiguous sections or parts of the sections, which are included in the tollable length. It would be the responsibility of the PD of the Plaza to send the draft of notification for levy of fee and other information, well in advance as prescribed by earlier circulars, for the entire tollable length. It is possible that the contiguous sections included in the tollable length may be under the control of the PD of Plaza himself/herself or may be under the control of some other PDs. In all cases, however, it shall be the responsibility of the PD of the Plaza to provide the information mentioned above. For example part of Kanchipuram – Poonamallee package is included in the Walahajpet – Kanchipuram section to form a tollable length. Both the packages

are under the control of PD, Chennai. On the other hand part of Haveri – Harihar packages is included in Hubli – Haveri package to form the tollable length. These packages are under the charge of PD, Chitradurga and PD, Dharwad respectively. The toll plaza is located in Hubli – Haveri package under PD, Dharwad. Therefore, PD Dharwad has to monitor the progress of the part of Haveri – Harihar package under PD, Chitradurga.

It is not possible to monitor the progress of such part lengths, which would form a tollable length with other completed packages, from the headquarters. It is, therefore, necessary for the PD of the Plaza to remain very vigilant in the discharge of his/her responsibility. It is equally obligatory on the part of the PD(s) of relevant packages to provide such information at least on monthly basis to the PD of the Plaza with a copy to all GMs in CM Division and copy to concerned GM in Technical Division at HO. Concerned PDs may assess their obligation by careful examination of the overall plan already circulated for GQ (a) about providing and seeking information from other PIUs and; (b) of ensuring completion of such lengths which can result in early completion of a toll section on priority.

Please ensure strict compliance.

This issues with the approval of the Chairman.
