Sub: Providing brand names/specific companies for procurement purposes.

It has been brought to our notice that while making supplementary procurements for certain special items like signages, road paint, glass beads etc. in some of the project works, certain conditions were put in tender documents which apparently favoured only particular brands of material and particular agencies. While the specific details are being obtained and issue would be addressed, all the technical divisions are advised to refrain from mentioning brand names and/or specific companies while specifying the requirements of materials. Exact technical specifications of the materials to be procured should be stated and wherever it is unavoidable to specify the standards without mentioning specific names, an equivalence clause should invariably be mentioned.
