POLICY MATTER-TECHNICAL (153/2014)

(Decision taken on File No.NHAI/CM/Balasore-Chandikhole/O&M/2013)

Sub: Bidding parameter for O&M contracts for 4/6 laned Corridors

The issue of the bidding parameter for O&M contract for 4/6 laned corridors has been deliberated upon. The practice so far has been that the bidders quote rates for all items of work involved in an O&M contract. It has been observed that the contractual agencies have a tendency to execute higher rated items and avoid execution of no rated items. Non-execution/delay in carrying out specially the preventive maintenance items of work leads to accelerated deterioration of the road crust.

2. It has, therefore, been decided that henceforth the rates/amount for each item of work as per SOR/market rates in the concerned state as assessed by NHAI would be depicted in the RFP alongwith the overall contract amount. Bidders will be required to quote a single percentage above/below the overall contract amount. This percentage would then be applicable for all the items of work in the contract for working out the rates for each item of work.

3. The standard bidding document for O&M contract stands amended accordingly.

4. This issues with the approval of Chairman.
